THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, OCTOBER 30, 1869.

"DOUGH FACES."

The *Standard* newspaper of this city has, of late, been in the habit of making loud pretensions of liberality to its political opponents, advising moderation, the suppression of all political animosity and discourtesy; in short constituting itself a pure apostle of "peace and good will to men."—In all this we knew it was acting the hypocrite, and merely putting on, what it accuses others of doing, a dough-face, for the sake of effect, as is clearly shown by the article under the head of "dough-faces" in its Friday morning's issue.

In this article it takes to task the Board of Commissioners of the Penitentiary, and reads them a lecture on party fealty, and deals out threats of party discipline and punishment, that will no doubt make the members of that Board tremble in their boots, in fearful looking for of the wrath which is to come. And what has the Board done, to call down this terrible avalanche of the Standard's ire upon their devoted heads? Why, they have elected or appointed Dr. Wm. G. Hill as physician to the Penitentiary. "This appointment has created much surprise and indignation upon the part of Republicans," says the *Standard*, and in the very next breath it says Dr. Hill is "a gentleman of high character, and a physician of more than ordinary attainments!" Is it a just cause for "surprise and indignation" to select such a man for such a position? O yes! for the Standard says, "he is not a Republican." It is well known that Dr. Hill is *not* a Republican, in a party sense, and it is equally well known that he takes no active part in politics, at all.—He is a native of the State, born and raised within fifty paces of his present residence, a gentleman of high standing and a physician "of unusual attainments," well known, esteemed and honored by the entire community, not only of Raleigh and Wake county, but throughout the entire State and beyond its borders. But "he is not a Republican," says the *Standard*, and therefore the Board are "dough faces," and are to be visited with the sharp cuts of the party lash for giving him the appointment of physician to the Penitentiary.

But, does the *Standard* insist that the rule it would apply in this case shall be carried out? It says so. Then let it be understood by all, and acted on by all. If Republicans only are to be favored by Republicans, let the rule work both ways.—Let those who are *not* Republicans cease patronizing Republicans in any shape or form. The *Standard* proclaims the law, let it be an edict!

"There are many good physicians and talented gentlemen who are Republicans and to some of them should this position have been given." Who were they? Were there any such applicants? Perhaps, if the *Standard* would name some of these "good physicians and talented gentlemen" who were applicants for the position, the public could see the justice of its castigation of the Board in a clearer light. Were there any such applicants here from Massachusetts, Maine or New Hampshire; Nantucket, Cape Cod or Buzzards Bay?

The reason of this attack upon the Board on the part of the *Standard* is plain to any one acquainted with the manner of doing up State jobs by the party of which it is the organ. This Board is composed of honest, long-tried and responsible men, who have a regard for their personal characters and the good of their State, and can't be inveigled into the "Ring" rascalities of those who make it a part of their religion to get all they can out of the State upon all occasions. The members of this Board are Republicans, and we differ with them politically, but, God knows, it affords us pleasure to award them the high commendation they deserve for the honest, economical and straight forward manner in which they have, so far, discharged the important trust committed to them. And in thus speaking, we utter the universal sentiment of the reliable, responsible and intelligent portion of this community. The powers that be, may move to the crack of the party lash and supercede the Board by the appointment of some more pliant party tools in their places, who will make the Penitentiary a Radical rather than a State enterprise, but this would be a matter of less regret to those thus prescribed than of injury to the State and her finances.

And now, we tell the *Standard*, the people really want less "dough-facing;" less pretension to moderation and more of the spirit of it. Less hypocricy and more honesty; less public stealing and more economy.

WE WOULD direct special attention to the communication we publish to day over the signature of "Blue Ridge," in regard to the lease of the N. C. Railroad. It is able, clear, and to the point, and will serve as an argument against the *sale* of the Road, when that subject shall come to be discussed, if it ever should, as well as against the *lease*, which some say is inaugurated to prevent it. Strange, that men should openly argue the necessity of forcing people to give away their property to prevent its being stolen from them.!

OUR GOVERNOR "INTERVIEWED" AGAIN.

Our "beloved" is in a fair way of becoming a celebrity in the line of being interviewed. A peregrinating correspondent of the New York *Herald* interviewed him some month or two ago, and, more recently, the editor of the Hillsboro' *Recorder* took him through the same process. It is true, neither of these interviewers made much out of the Governor, as he was in both cases very non-committal.

We design noticing some points in the recent interviewing, supplying, parenthetically, such parts as either the Governor forgot to mention or the interviewer neglected to chronicle, but which are necessary to a full understanding of the "situation."

Gov. What do you think of my proclamation?

Ed. To be candid, Governor, you would have been happy in mentioning the recent outrages in your proclamation, that have been committed by negroes, as well as to have warned both alike, the league and the ku klux.

Gov. Well, I regret that I didn't name all of the offences of both sides, particularly the barn-burnings in your county, (but the devil of it is, I am so intimately connected with the leagues, as their President in the State, that I dared not denounce them in my proclamation.) But I am preparing an address to be published in a few days, and in it I expect to deal impartially towards all. (I must try to do this some how, and as the addr.ss will not be so particularly an *official* document, nor attract the attention of the leagues so immediately, I'll try to wrap up the matter in *words* some way or other, so as not to offend the leagues, and at the same time be satisfactory to others.)

I never was a secessionist (except when I declared in 1856, that the election of Fremont to the Presidency would be a just cause for secession, and the time I signed the ordinance of secession in '61, and pledged the "last man and last dollar," to make that act effective.)

Ed. What do you think, Governor, of universal suffrage?

Gov. I am in favor of suffrage for all or none. (I am devilish glad you did'nt include in the interrogatory, my opinion of the universal removal of political disabilities, which some conceive to be included in what is called "universal amnesty," for I could not go that. I am afraid of these fellows Vance, Graham, Manly, Haughton and others, to whom allusion has been made, as leaders; why, they would knock the hind sight off of me and my party friends, before the people, in the first campaign.)

Ed. How about Congress?

Gov. An internal strife may not happen in my lifetime but it may come in yours, and if it ever does it will come from the trenchings of Congress upon the Executive functions. Men hate to yield power.—Grant is now powerless. Every appointment made in the different States is by authority of Congress. (It is true, I gave all the moral weight which my accidental position enabled me to give, as well as the influence of my paper, to the actions of Congress, in their trenching upon the Executive functions; but that's nothing: I have done so many things that my better judgment disapproved, for the sake of attaining my private and political ends, that this can make but very little odds in the general account. Take another Havana.)

"Thus sang the sweet sequestered bird,
Soft as the passing wind;
And I recorded what I heard
A lesson for mankind."

The following is a slight account of the late terrible disaster, that overtook the Steamer "Stonewall," which was burned on Tuesday last on the Mississippi River, forty-five miles above Cairo. The Steamer left St. Louis on Tuesday evening bound for New Orleans, laden with passengers, horses, mules, hay and other freight, and when some distance above Cairo was discovered to be on fire and was speedily burned to the water's edge.

An effort was made to land, but the boat was so heavily laden that it could not reach nearer than one hundred yards to the shore. Great confusion and terror prevailed. About two hundred deck and cabin passengers aboard, a large number being women and children. The flames spread rapidly and scores of men jumped into the water and attempted to swim ashore.—Nearly all were lost. The pilot, engineer, store keeper, carpenter and forty-four passengers are known to be saved. The captain, clerks and other officers were lost. All the books and papers of the boat were lost, as were all the cattle and other freight.—Many persons died after reaching the shore from exposure. All the women and children were lost, nearly if not all being burned to death.

The conduct of the passengers and officers is said to have been heroic. Such an appalling scene has not been witnessed on the Mississippi in many years. Those saved were kindly cared for by the officers of the "Bell" from Memphis, and were carried to St. Louis. In an interview with the Assistant Engineer of the "Stonewall" we get the following: The alarm was given at 4:30, and in ten minutes the boat was in a sheet of flames; every person had deserted her.—All that were lost were drowned, and none were burned. Of eleven women on board three were saved. Only one yawl was seen and that was taken possession of by some deck passengers.

Mr. C. M. Tucker, a worthy citizen of Guilford county, was severely injured by an enraged bull. The Greensboro' *Patriot* gives the following account of it:

"Mr. T. went to the barn to feed his stock and was attacked by a Durham bull—knocked down, two ribs and one leg broken, and would, no doubt, have been killed had not two mules, which were loose in the lot, made a vigorous assault upon the bull. It is a singular affair and had it occurred where it could not have been unquestionably verified we should have been disposed to discredit it. Mr. T. will be a cripple for life."

We learn from the Western *Sentinel* that Mr. Arch Hooper of Rockingham, received a very painful wound in his arm at Ruffin station, on the R. & D. road a few nights since. A negro man who was driving his wagon had a loaded gun lying in it, and during the night Mr. Hooper on getting in the wagon, struck the gun somehow, exploding the cap, and lodged the load in his left arm, near the shoulder, fracturing the bone badly.

For the Sentinel.

JUDGE SETTLE AND THE ROCKINGHAM ATTORNEYS.

The conduct of this Judge in refusing to allow certain Attorneys of the *Superior* Court to practice before him while sitting as an examining Magistrate in the county of Caswell, has become historic, by the notice taken of it in the "Review" of the proceedings and opinions of the Supreme Court of the State, "in the matter of the Bench and Bar of North Carolina," which has lately been published and extensively circulated.

In the note to the Review, which brings to notice this extraordinary proceeding of the Judge, the legal proposition is stated by the reviewer, "*that being struck from the roll of Attorneys by one Court is no reason against being allowed to practice in another*," for this Chief Justice Marshall is cited as authority.

The reviewer might have added another very high authority, from a case decided just before the commission of this outrage on the liberties of Attorneys.

The subject can never lose its interest among a free people. For, (as is well remarked by Chief Justice Gibson, in *ex parte Austin*, 5, Rawl. 194,) "to subject the members of the profession to removal at the pleasure of the Court, would leave them too small a share of the independence necessary to the duties they are called upon to perform for their clients and to the public.

"As a class, they are supposed to be, and, in fact, have always been, the vindicators of individual rights, and the fearless asserters of the principles of civil liberty existing, where alone they can exist, in a government, not of parties or men, but of laws."

The case to which I invite attention, is alluded to in the Review; but not to sustain Chief Justice Marshall, who rarely needs any support for his opinions.

It is the celebrated case *ex parte Bradley*, decided in December, 1868, by the Supreme Court of the United States, reported 7 Wall. 364.

In this case it is expressly decided that a contempt towards Judge Fisher, presiding in the *criminal* Court of the District of Columbia, is no contempt towards Judge Fisher sitting in the *Supreme* Court of the District; and that a disbar of Bradley in the former court was no disbar of him in the latter Court.

The difference between Judge Settle's case and Judge Fisher's is that no Court whatever had ever accused the Rockingham lawyers of being guilty of a contempt of Court, whereas Bradley had been declared guilty of a contempt in the criminal Court, and Judge Fisher undertook to extend the contempt to another Court where he sat.

Judge Settle, without any such pretence, forbade the Caswell lawyers to practice before him, though they had never been disbarred by any Court, nor had they been accused of a contempt by attachment or even notified of a rule for an attachment!! Judge Settle's proceedings fully illustrates what Chief Justice Gibson meant by a "removal at the pleasure of the Court."

We advise the Judge, as he is a young lawyer, to read the case.

A LOVER OF CIVIL LIBERTY.

For the Sentinel.

THE SALE OF NORTH CAROLINA.

Verily we have learned many things since our late war. The blessings, of loyalty and reconstruction are countless, not to say passing strange. Among them, the new method of disposing of the State's property and the people's money, is not the least remarkable. The very last limit of taxation which insolvent human nature can bear, having been reached, the *property* of the State is next attacked. The attempt on the swamp lands which belong to the school fund, was checked and baffled, but it seems that the State's interest in the Central Railroad is about to become an accomplished iniquity. Surely the Stockholders of this corporation, the pride of the State and the child of its noblest sons, will do something to prevent this shameful trade or *treachery* of the Board of Directors.

No nobler men ever adorned our country's annals than those sagacious and patriotic statesmen who incorporated this Road and gave their money to build it. The great idea, of which it was the first development, was a grand Railway line from the Sea shore to the Mississippi valley, stretching through the heart of the State. From this great artery, veins or branch Roads were to extend into every part of the land; and all were to pour their treasures toward the *sea, within our own borders*, enrich our own people and build up our own cities. No one will deny this. Our people, then timid and economical, were appealed to on this ground to stand the taxation, and their State pride rallied to the appeal. For years and years they have cheerfully paid taxes for this great object—slowly the mattock and the spade did their work, and in their wake the iron horse crept away from the blue waves of the Atlantic and made his way Westward with majestic strides. He now pauses in the *last pass of the Blue Ridge* whilst the way is opening for him to the wealth of the great valley beyond! In all these weary years citizens have waited without dividends, knowing they could get none until a through connection with the West was established. Now that this is *almost* done; now that a direct line of Road from Augusta pours its great freights in upon this Road; now that the Charlotte and Rutherford Road will soon pour into our depots another stream of trade and travel, and various others are in course of construction to become also its feeders and tributaries; and that there is every prospect of our Road speedily becoming not only the greatest Road of the State but the greatest and most profitable of the South; *now* comes this lease, and the fruit of all this expenditure of money and patient waiting is to be reaped by others!—And the cities of the East, Wilmington, Newbern and Morehead are to be absolutely cut off from all hope of Western trade.—Is it not cruel? Is it not an outrage?—Yes, an outrage upon our Stockholders, upon the State Treasury, and upon our Eastern people! If this Road pales into the hands of the R. & G. Railroad and its Ring of Norfolk and Baltimore bankers for twenty years, it amounts to nothing less than a declaration of war against our own people East of Raleigh, in favor of *strangers*; and shuts out forever, the gallant people of that region from the rich products and increasing commerce of their own State! I for one am not willing to do it, no, not for 40 *per cent* per annum, am I willing to shut the door against my fellow-citizens of the East, and meanly turn these costly State works which *their* wealth helped to build, into instruments of ruin and oppression? That the lessees of the Road would do this there can be no doubt. That was the sole object of the lease. The last clause but one of the lease is in these words: "That said party of the second part shall have leave to change any *shops, tracks, houses* and *other things* in such way as to promote the convenience of shipments of freight, travel, &c., &c." This means that they may run the track of the N. C. Road on the Northwest of the city of Raleigh to the old Raleigh and Gaston Depot! It further means that the lessees may remove all the Company's machinery and fixtures from the Shops to any other place whatsoever, and they are not bound to return them to that place; and also, of every thing else on the Road! It also means that there will be perhaps no trains at all operated from Raleigh to Goldsboro, there being no clause of said lease, directly or indirectly, compelling them to do so; or in any other way to oblige the public. In fact the lease does not forbid the lessees from closing the entire Road, from Charlotte to Goldsboro if they should see fit!

And all this is to be done under the pretense that there is money to be made by it—the common excuse for villiany in this loyal age. But even this is false; so obviously false that no man can fail to see it who will examine the subject for one moment, as I will now proceed to show.

The first 18 months after the war afford no good ground for calculation. They were extraordinary months, both in receipts and expenditures. The vast sums derived from the transportation of troops and army stores, and the hoarded supplies of Cotton, increased the one as much as the extraordinary outlays for repairs and supplies did the other. But the fiscal year from July 1867 to July 1868 will afford a fair starting point. According to the official reports that year the figures stood thus:

July 1868, Gross receipts	$585,411,09
Expenses	264,772,28
Nett profits	$314,638,81
Increase of gross receipts	66,852,14
July 1869, Gross receipts	638 117,42
Expenses	281,238,09
Nett profits	$398 884,33
Increase of gross receipts	73,706,33
" Nett profits	80,245 52

This exhibit shows several important things. First it shows that the Road made for the year ending July 1868 $76,633,81 by keeping its business in its own hands instead of leasing for $240 000. For the next year it made $156,884,33 by attending to its own business. Well might the R. & G. Road afford to give $240,000 per annum when in these two years alone they would have made $233,523,13! Was ever there so bold a proposition made to sensible men!

But it shows further, that during those two years there was a steady increase of the gross receipts amounting to about 11 per cent and a corresponding increase of the nett profits; due to the reviving prosperity of the country. The same rate of increase in two years, would pay off the debt of the Company and then dividends would begin. In ten years the gross receipts would amount to about $1,600,000, in 20 years, by the expiration of the lease, the increase at the same rate, would amount to over $4,500,000, and the profits in a ratio somewhere near this, allowing expenses to increase at the rate of half this per cent! Is this calculation too large? Will not the increase of public wealth, population, and general production, enable the Road to increase its business 11 per cent per annum? I think it will, but I write without statistics. Perhaps Mr. Editor, some gentleman in Raleigh, near the public library may look into it. But put it at 5 per cent, less than half, and you will see, that judiciously managed, this Road would almost relieve the State from taxation for its ordinary expenses in ten years! These figures can not be slighted. So we would commit a great wrong upon our own citizens, enrich speculators, and lose money ourselves by the process! I differ with many in regard to the increase in the profits of the Road being due to Major Smith.—So bigoted a partizan and one so utterly ignorant of finance, could not have produced this result. It is due to the increasing business of the country alone; and with a more liberal system of local fare and freights would have done still better. There is every reason to believe that the business of the Road will grow with the country, and our own people are entitled to reap its fruits.

Finally there can be little doubt but this is the beginning of a plan to rob the State of its property on one pretense or another, and it should be stopped in time. Every Stockholder should attend the next meeting in person, and bear at least all that can be said against this iniquity before voting for it.

WANTED.—A Store, one in the vicinity of the Market preferred, would like possession immediately. Inquire at Pepper and O'Connor's.

NEW ADS.—Second supply of Millinery, really beautiful, fashionable and tasty, Mrs. Oettinger.

French Candy and other good things at Royster's.

Hardware, J. Brown with Hart and Lewis.

Auction to day, 10½ o'clock, A. M. by Jas. M. Towles.

We are informed that a Company of negro militia left the city, Thursday night, destination unknown, notwithstanding the *Standard's* assertion, on Friday morning, that the militia had not been armed nor had received marching orders. We learn, also, that a train was sent to Goldsborough on Thursday, to bring up troops from there, and that they were to arrive at Raleigh on yesterday. It is probable the recruits which left Raleigh have gone off to some point for the purpose of drilling.

INDIAN SUMMER.—After the rain of last week and the cold snap that followed, we have had two or three days of "Indian Summer," a season we look upon as the most pleasant of the year.

TINNING THE MARKET HOUSE.—We mentioned a few days ago that Mr. J. C. Brewster had obtained the contract for covering the new Market House. In this we were partially in error; the contract is taken by Mr. J. Brown, with Hart & Lewis, and Mr. Brewster does the work.

FRENCH MILLINERY.—See the new advertisement of Mrs. Beasley.

Mrs. B. requests us to say that her exhibition of Millinery goods at the State Fair, were of her own manufacture, made by herself and Assistants at her establishment in this city, notwithstanding the declaration of the Committee, who decided that they were made in New York, misled, doubtless, by their extraordinary beauty and finish.

STOVES.—We made, in a former issue, mere casual mention of the stoves exhibited at the Fair, by Mr. Thomas H. Briggs, of this city. The following took premiums and Diplomas:

Snider and Erby's "Genial,"	Diploma
"Southern Home"	first premium
Wood and Coal grates	Diploma
Parlor Cook	Premium
"Morning Star"	Premium.

These stoves attracted much attention from visitors to the Hall where they were deposited.

THE LEGISLATURE, meets here on the second Monday, (the 15th day) of November. We shall have reporters in both Houses and give a true and succient synopsis of the proceedings. Persons desiring to keep posted in the proceedings of that august body may rely on getting reliable reports by subscribing for the SENTINEL.

We learn that all *visitors* as well as *delegates* to the Baptist State Convention which meets in New Berne on the 10th prox, will be passed both ways on the Atlantic and N. C. R. R. by order of the President, and the President of the N. C. R. R. will doubtless grant the same privilege.

A correspondent of the *Tarboro Southerner* writing from Oxford says:

Rev. T. B. Kingsbury, D. D., united with the Methodist Church here on last Sunday.

LENOIR AGAIN.—The Newbern *Journal of Commerce* says, we conversed yesterday, with one of the most intelligent farmers of Lenoir county. A member of the Church, a pious, consistent Christain gentleman. We inquired what was the condition of affairs in his county, and what necessity there was for the proclamation of Gov. Holden. He told us that the utmost quiet prevailed, that there was not the slightest necessity for the proclamation, and that the Governor had made a false statement when he affirmed that Lenoir county was in a state of insurrection. We were sure this was the case, and were pleased to know that one so intelligent, and so entirely reliable, agreed with us.

THE LOUISIANA EQUITABLE LIFE INSURANCE COMPANY OF NEW ORLEANS.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40,000,000 annually North, our citizens can find better companies at home.

THE WORKINGMEN'S PARTY.

If the real friends of the laborer and workingmen are in earnest in their endeavors to improve their condition through the instrumentality of the ballot-box, it seems to us the idea of a third party, now put forth in some quarters, ought to be very carefully considered. And if the consideration does not lead to the conclusion that, after all, labor, instead of being benefitted by that experiment, is likely to be crushed between the upper and nether millstone, then we have failed to comprehend the philosophy of all such experiments heretofore.

We are all Laboring men in this country, one way or another. The only party that has marked out a policy tending to draw a distinction between labor and capital—in other words, the rich and the poor—is the Republican party, which lives and moves and has its being, now, solely in Government bonds and National Bank paper money, with other nutriment from high tariffs enacted in the interest of the monopolist, and against the interest of the laboring classes. The Republican party is the party of the (paper) money kings, the manufacturing lords, and the monopolists; and so long as that party is permitted to administer the Federal and State Governments, shaping legislation to suit itself, just so long will the laborer and workingman be, in their relations to the "governing" class, what the Israelites of old were to their Egyptian task-masters—hewers of wood and drawers of water—nothing else.

Hence, to dislodge that great Money Oligarchy from power, and to so change the policy of the Government as to restore the great industrial interests of the country to the prosperity they enjoyed when the Government was administered on Democratic principles—should be the aim of all who desire the cause of the workingman to be the winning cause. The Democratic party has all the necessary machinery to break down that Oligarchy; but strength is needed to keep the machinery in motion, and to make it effective. These party divisions are but a cunning device of the money kings and the monopolists to weaken the Democratic opposition, and to keep themselves in power. They think if they can but get up a "Workingmen's party" within the Democratic fold, they will be all right. Can it be possible that any man is so blind as not to see the bait that is thus set to catch gudgeons? We can scarcely believe it. There has been, as there is now, but one real Workingmen's party in the country, and that is the Democratic party.—*N. Y. Express.*

The Milton *Chronicle* gives the following sketch of a young brigand:

Some time ago we chronicled the robbery of Mr. David Patterson's Store of this town by a youth named Charley Birch. He was caught, tried and sentenced to the penitentiary for six months. In view of his youth, Judge Tourgee tempered the law with mercy, hoping that the lad would reform. His term of confinement expired at our last court, and he came back here where a subscription was handed around to raise money to take him to the far west. Robbing the funds he loitered around and attended the Danville Fair, where he stole Capt. Joseph J. Yarbrough's horse. He rode the horse into Rockingham county, and staid all night at Maj. Bethel's; the Major was not at home, but his son gave him permission to stay all night, and assigned him a room up stairs. Next morning Birch came down the stairs and went into a room where young Bethel sat. Bethel noticing that the clock in the room had run down, asked Birch if he had a Watch, (with the view of setting his clock,) and the answer was he had not. Bethel now started up stairs to get his watch and Birch following him begging for his horse—Bethel finding his watch gone collared the young rogue and made him deliver it up. After this he missed some gold sleeve buttons and again collard Birch, who drew a knife—Bethel let him go to get his gun, and Birch ran like a quarter horse. Bethel shot at him twice, but Birch escaped minus Yarbrough's horse.

Birch is now hanging around this neighborhood, and on Sunday last Mr. Wm. Long's, Store was broken into and robbed of goods and money to the amount of $300. He is suspected of the robbery. He is a bold and daring villain for one so young, and if not arrested will give the public much trouble.

TELEGRAPHIC.

Friday Evening Dispatches.

WASHINGTON.

WASHINGTON, Oct. 29, M.—The Agricultural report, in alluding to the cotton crop, says, 'the fertilizers so liberally used in the Atlantic States, and the large amounts of money invested in improved implements of Agriculture, have forced the crop to an early maturity, and therefore the late picking will be comparatively light.'

The drought in the Carolinas and Georgia, caus the early bolls to drop on uplands. The ravages of the cater pillar and boll worm, exceptionally severe, was by no means general. Picking will be over unusually early except on plantations short of labor.

The report concludes: 'Detailed and complete estimates of the aggregate yield have not yet been made but there is no reason to believe, from an examination of the October reports that the preliminary and conditional estimates heretofore made of 2,750,000 bales, (the only one made this season,) the newspaper reports to the contrary notwithstanding, can be exceeded.

In the next report will be given a detailed summary of the yield, after the final reports are received and carefully examined.

It is stated that upon the assembling of Congress, a movement will be inaugurated modifying the powers of the supreme court, to the extent of subjecting all its decision affecting reconstruction to the revision of a special Joint Judiciary Committee of Congress.

The policy of the government in the Yerger case seems to be to postpone the issue.

The committee on foreign relations meet here next week. It is hoped their action will further the Cuban interests.

Boutwell has issued a circular to Revenue officers directing them to enforce the law regarding safety valves on vessels carrying passengers.

In the case of the state of Texas, ex. George Peabody et al., Judge Paschal to-day obtained writs of subpœna returnable first Monday in December; the first Friday in February is fixed for the hearing.

It is apprehended that Col. Casey, collector of customs at New Orleans, with his family, was aboard the Stonewall.

Mrs. Agnes Paschal, aged 94, one of the last widowed pensioners of the Revolution, died recently in Georgia.

The following item is furnished from a truthful source: Gen. Clark and other Texans, and some Missouri planters have applied to the President to have the elections in those States indefinitely postponed. They insist that this decision in the Yerger case and the certainty that Hamilton and Dent will carry the elections, render this necessary. It is not probable that they will succeed.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug. 9-10, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLING.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
DAVIES' REVISION OF PIKE'S ARITHMETIC.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October next. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with

C. W. LAMBETH,
Agent for the Publishers and sup't of Introduction.

From Dr. WM. B. HASKELL, Prin. High School, Snow Hill, N. C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SHEPARD, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies - Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALBERT SHEPARD.

From J. W. GULICK, A. M., Prin. Male Academy, Guilford, N. C.:

GUILFORD, N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular. J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSE, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present edition McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSE.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin. Auburn Academy N. C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STANCELL D IVEY.

Prof. WM. A. GRAHAM, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON, N. C.

"Davies' Mathematics" was adopted by me in 1856, and, up to this time, I have examined no work superior to them as a whole.

I have examined, with a view of introducing, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organism, whose; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Ameona Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purposes.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. JAS. H. FOY, President Statesburg Seminary High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. Lawrence TO ENLARGE HIS LABORATORY AND FACILITIES FOR MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *Aspatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of CATHARTIC PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its WORK PROMPTLY, SAFELY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the importance of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they EXAMINE this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 328 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 337 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
